DETAILED ACTION

1. This Office Action is in response to the applicants' communication received on April 20, 2007.
2. Claims 1-28 are presented for examination.
3. The applicants have amended claims 1, 11, and 19. The applicants have not cancelled any claims.
4. Applicants' arguments with respect to claims 1-28 have been considered but are deemed to be moot in view of the new grounds of rejection.

Claim Objections

5. Claim 1, 11, and 19 are objected to because of the following informalities:

The applicants have amended independent claims 1, 11, and 19.

However, the amendment to these claims do not produce a concrete and useful result.

The claims recite encoding information and storing the encoded information. The claims do not recite specifically what happens to the transformation of the data as a result of the data being manipulated by encoding the information. It is the opinion of the Examiner that the applicants should kindly consider introducing dependent claims 5, 10, 17, 18, 23, 24, 26 into independent claims 1, 11, and 19 in an effort for the claim to comprise a concrete and useful result.

Therefore, the remaining claims are dependent claims. These claims are also objected to for being dependent upon the above objected to base claim.

Appropriate correction is required.
